

First Time in Johannesburg—March 2018

Master Crystal Teacher Mika Leads Two New Classes

Instantaneous Healing through the Vogel Technique

Saturday, March 10, 10am—5pm

Marcel Vogel (1917-1991) was a research scientist for IBM for 27 years and holds numerous patents for his inventions. His areas of expertise were phosphor technology, liquid crystal systems, luminescence and magnetics. From his pioneering work in plant communications and his deep study of quartz crystals, he created a unique faceted crystal known as the Vogel-cut crystal. It can serve to store, amplify, convert and cohere subtle energies.

During this full-day workshop, we discuss his discoveries on crystals, water and storage and we look at the new techniques that have emerged utilizing the Vogel crystal for healing, that were passed along to Mika. In his nearly 30 years of working with crystals, Mika has never observed as much instantaneous healing as is possible by using the Vogel technique, where we become conduits of Light and Love offered through the Divine. When a crystal is cut and shaped, it takes on a form that can be found in a Sacred Geometric pattern...in this case, the Tree of Life form. This is a hands-on class where you receive and give healings through this Sacred form. Class counts towards Certification through The Academy for Healing Arts.

Crystal Guardians and the Five Quartz Frequency

Sunday, March 11, Noon—5pm

Crystal Guardians are among us, giving selflessly to assist humans in advancing toward our destinies and Ascension. In this class, we study the Five Quartz Frequency: starting with Clear – the Grandfather of the Crystal Kingdom – then encompassing all the colors of the rainbow, quartz manifests and resonates throughout our Chakra system. The clarity of pure white light moves from its clearest high vibration into the denser and lower frequencies of the Smoky, the Rose, the Citrine and the Amethyst. The Crystal Guardians direct you in a deep meditation process, resonating in sequence with each of these stones and color frequencies, to facilitate your journey. Join us to heal and attune your chakras.

MIKA is recognized worldwide for his excellence in teaching on crystals, energy healing and Magnified Healing. Called "a teacher's teacher and a healer's healer" by many, Mika is a trained Crystal Keeper and Guardian, a Traditional Reiki and Karuna Reiki Master, Master Teacher of Magnified Healing and a Clinical Hypnotherapist. Mika's teaching ministry includes structured classes in crystal and gemstone therapy under The Academy for Healing Arts, and he has extensive experience with Marcel Vogel

techniques. Mika has also lectured on crystals and healing at the United Nations in NYC. In addition to teaching, Mika is a personal certified guide for Sacred John of God Tours to Brazil. www.academyforhealingarts.com
